

## CALL FOR PARTICIPATION

### 9<sup>th</sup> International Symposium on Power-Line Communications and Its Applications ISPLC 2005

The Organizing Committee of the 9<sup>th</sup> International Symposium on Power-Line Communications and Its Applications (ISPLC 2005) would like to invite industrial delegates to participate in the scientific and social activities of ISPLC 2005, which will be hosted by the Department of Electrical and Computer Engineering, University of British Columbia, *April 6-8, 2005, Vancouver, Canada*.

**Objective:** The Symposium is centered around the general problem of communication over power lines. It focuses on the latest *technological advances* in power-line communications and current and future *applications* of power-line communication systems as, for example, broadband Internet access, indoor home networking, power-line based communication in vehicles, power-line control networks etc.

**Value:** The Symposium regularly brings together about 100 researchers and engineers from academia, industry, government and standardization organizations, as well as vendors and customers of power-line communication technology. Your delegates will have full access to all plenary sessions on technical subjects, concurrent symposia and technical sessions, new product sessions and displays, and will receive copies of all proceedings.

**Costs:** The registration fee is \$CAN 450 and includes a Welcome Reception, a Banquet, and two luncheons.

**Patronage:** We would like to offer your organization a chance to have a greater visibility in ISPLC 2005 and be recognized as a leader in power-line communications. For \$CAN 1500 your company becomes a *Symposium Patron*. The main tangible benefits to the Symposium Patron are:

- Your company's logo appears on the Symposium web site.  
The logo is also a hotlink to your company web site.
- Your company's logo on the sponsorship page of the Symposium Proceedings.
- Your company gets special thanks from the conference chair in the Symposium Proceedings.
- Your Organizational Banners are displayed in the registration area.
- Opportunity to display your company's power-line communication products and services.
