

Digital Media Industry and Academic Forum

www.ieee-digitalmediaforum.org

FIRST CALL FOR PAPERS

The International Digital Media Industry and Academic Forum (DMIAF), technically sponsored by IEEE, is the forum that brings together researchers from academia and industry, and industry executives with diverse experience and activity in distinct, yet complementary areas, to discuss the development of emerging and next-generation Digital Media technologies, applications, and services. The program will include keynote addresses by industry executives, special sessions focused on industry-centered topics, presentations of novel research results, and industry-led panels. The forum will be held in Athens, Greece. A rich social program will complement the technical one.

DMIAF 2017 will bring contributions from a wide range of areas, which include but are not limited to

Advertising	Virtual & Augmented Reality
Social Media	Interactive Media
Professional Content Production	HDR, Stereoscopic, UHD Displays
Archiving, Storage, and Compression	Digital Media for Health and Wellness
Animation	Emerging Technologies in Digital Media
IPTV: IP/Mobile TV	3D Technologies
Digital Cinema	Image & Video Capturing
Multicast/Broadcast/Streaming	Analysis, Indexing, Retrieval
Quality of Experience and Quality of Service	Media Communications
Light Field & Holography	Digital Rights Management

GUIDELINES

Prospective authors are invited to submit original technical papers for presentations at the conference. Accepted papers will be published in the IEEE DMIAF 2017 Conference Proceedings and eligible for submission to the IEEE Xplore Digital Library.

Submission Instructions, templates for the required paper format, and other information are available at

<http://ieee-digitalmediaforum.org/information-for-authors.html>

SPECIAL SESSIONS AND PANEL SESSIONS

A significant number of special sessions will be organized by leading industry experts in emerging application areas. Proposals for Special Sessions are also solicited and should be sent directly to the respective chairs. They present leaders in a particular area, discussing a topic of interest within the scope of the forum. Proposals for Special Sessions should consist of a 150-word abstract, a 1000-word summary, and a cover page listing details of the organizers/author(s).

IMPORTANT DATES

Paper submission deadline: ~~April 30, 2017~~

Extended deadline: May 31, 2017

Special session proposal submission: May 31, 2017

Acceptance notification: June 30, 2017

Camera-ready full paper deadline: July 15, 2017
